Nurturing **Vision** into **Reality**

*optimising space and
fostering connectivity*

SERVICES

ARCHITECTURE

BPSM offers a team of highly skilled architects to personally design each building to meet your individual needs.

We listen and respond with creative solutions, providing you with the best possible value outcome.

INTERIOR DESIGN

Whether you desire a contemporary style or a sympathetic fit-out within an existing structure, BPSM provides a dedicated interior design service.

Using a pragmatic approach, we ensure that the needs of the user are met through functional planning.

PROJECT MANAGEMENT

Our thorough Project Management systems ensure that the entire project is managed effectively and efficiently, so schedules are maintained and costs are controlled through a process driven methodology.

BSPM provides a seamless interface between the design services and the on-site building team.

PLANNING

BPSM have over sixty years experience in strategic project evaluation and master planning services, and we have planners with up to date information on the current planning schemes. We assess each project to provide maximum design flexibility within the planning framework on a local and global level.

Our team is highly skilled and experienced, with a strong project management and design ethos.

BPSM Architects is made up of a unique mix of professionals. Well-established working relationships and individual areas of expertise and skills combine to allow us to provide a diverse and extensive range of knowledge and experience for any project.

GOING BEYOND THE DESIGN

At BPSM Architects, we believe that the role of the Architect goes well beyond simply providing design ideas. Each new project requires our total commitment from concept to completion, to enable us to meet any unique complexities and challenges.

We deliver an individually tailored and comprehensive design process that engages you, the client, in all aspects of the project to ensure that it is completed to the highest quality with close attention to detail, timeline, and budget.

THE SPEND

With increasing external pressures on clients' project budgets, we work closely with both clients and specialists to ensure we deliver on time and on budget.

BPSM strives to be an industry leader by learning from previous building models and practices, keeping up with the latest trends and social movements and testing new grounds in building design.

A SKILLED TEAM

Our architects and interior designers strive for a balance between art and technology, form and function, beauty and purpose, vision and performance. Problem solvers by nature, we listen to our clients' concerns, understand their goals, and then craft project teams whose collaborative approach can best fulfill their aspirations.

As designers of the built environment, BPSM has a goal to bring our clients unique concepts in how they inhabit and experience their buildings and the space around them.

YES, WE DELIVER

Our designers collaborate, research and apply sustainable practices to create a rich and fulfilling architecture. We will deliver site-specific solutions to a range of design challenges and work with like-minded, quality-orientated consultants to successfully deliver each and every project.

PROJECTS

EDUCATION

BPSM offers a range of design solutions for creating a flexible learning environment. Our experience ranges from childcare centres through to tertiary facilities, each with very different requirements, budgets and student needs. We listen and assess before recommending a functional design response.

AGED CARE

BPSM has a wealth of experience designing and project managing the development of aged care facilities. We understand the complexities of providing a safe and homelike environment for residents whilst managing the operational prerequisites of efficiency and compliance.

HEALTH CARE

Architects are constantly challenged by constraints of size and budget. BPSM excels in creating innovative designs within the parameters of government standards and health policies. We have managed large redevelopments and specific fit-outs within the health sector, incorporating state of the art equipment, and improving operational efficiencies.

COMMERCIAL

We have a long history of commercial design excellence and a good understanding of the methods and focus required. This allows us to confidently manage your commercial project from its inception, through the building process, to business commencement.

CORPORATE

Often commercial facilities need to be enhanced to optimize space and embrace new technologies. BPSM believes in creating a vibrant working environment which fosters connectivity and optimizes workplace efficiencies.

RETAIL

We can make your retail concept a commercial reality. Our architects understand the need for an interactive retail experience which allows the merchandise to dominate. Offering you a distinctive architectural image within a competitive urban environment.

RESIDENTIAL

By listening and truly understanding our clients needs we create an honest architectural design which articulates the individual personality of the home owner.

BPSM will develop an exceptional concept and manage the building process through to project completion. We also recognize the importance of environmentally sustainable design for the individual cost savings and the broader community benefits.

BPSM have designed numerous multi-residential developments. We can undertake planning assessments and feasibility studies before developing an appropriate residential solution.

CIVIC / GOVERNMENT

BPSM has undertaken architectural projects for libraries, churches, courts, and various council buildings. Each building conveys a sense of community, reflecting the cultural environment and communicating a modern progressive outlook.

INDUSTRIAL

Industrial building design requires rigorous planning and meticulous adherence to workplace compliance regulations. Our detailed project management process allows our architects to meet these requirements, retaining structural integrity and delivering an efficient and effective workspace.

TOURISM

Good architecture and interior design reflect the culture of a business, whilst being sensitive to the built environment. BPSM can create a strong visual statement which invites a sense of community and fun.
